AKD launches new stock trading software

KARACHI: AKD Trade - the online division of AKD Securities Limited launched its New Stock Trading Software in a Soft-Launch Ceremony held at Karachi Club - Annexe on Wednesday, October 6, 2010.

In his message, the Chairman of AKD Group, Aqeel Karim Dhedhi has said, "AKD Group has always been on the forefront, whenever it is a matter of safeguarding the interests of general public and providing them with the best available opportunities in the market. This is the reason, we started the online stock trading facility in Pakistan with a mission to provide retail investors maximum access to Pakistan's Capital Markets back in 2002, when nobody else was providing the online facility. Today, we have moved one step further in achieving our goal by launching this new trading platform as it will open new horizons of stock trading."—PR
