

AKD Trade switches on state-of-the-art software

Staff Reporter

KARACHI: AKD Trade, the online division of AKD Securities has launched its new stock trading software, which is said to go a long way in improving online business.

A large number of AKD Trade customers were also present on the occasion.

In his message, the Chairman of AKD Group, Aqeel Karim Dhedhi said AKD Group had always been in the forefront, be it safeguarding the interests of general public or providing them with the best available opportunities in the market. He

added AKD had pioneered online stock trading facility in Pakistan with a mission to provide retail investors maximum access to Pakistan's capital markets as back as in 2002 before anyone else.

While addressing the ceremony, Muhammad Farid Alam, CEO of AKD Securities said the biggest asset of AKD Group was its clientele and the most important thing was to provide them with the best services. Alam pointed out that the new software has been developed using the latest technology and keeping in mind the growing requirements of the investors. It has no comparison with any of the software currently used in the industry and is highly compatible with the softwares used internationally.

Muhammad Haris Aslam, GM - AKD Trade, highlighted the salient features of this new software which includes Mobile Trading, SMS Trading and a number of value added tools required to access all the necessary information essential for trading stocks such as Real-Time Graphs, RSS News Feed, Announcements, Tickers, Multiple Market Screens, Voice Alerts, Financial and Technical Data of listed companies etc.
