AKD launches new stock trading software

By our correspondent

KARACHI: AKD Trade, the on-line division of AKD Securities Limited, launched its new stock trading software at a ceremony held on Wednesday.

"AKD Group has always been on the forefront, whenever it is a matter of safeguarding the interests of general public and providing them with the best available opportunities in the market," said Aqeel Karim Dhedhi, Chairman AKD Group.

"This trading platform will open new horizons of stock trading."

Dhedhi has also reiterated that he would continue with the efforts to improve the investment environment in the country and urged the decision makers to take necessary measures in this regard.

Addressing the ceremony, AKD Securities Chief Executive Officer Muhammad Farid Alam said that clientele is the biggest asset for the AKD Group and the most important thing for the group is to provide them with the best services.

The new system includes mobile trading, SMS trading and a number of value-added tools required to access all the necessary information essential for trading stocks such as real-time graphs, RSS, newsfeed, announcements, tickers, multiple market screens, voice alerts, financial and technical data of listed companies, etc.
